SMALLPOX CASES

Doctors in Neighborhood Near Amherst Are Busy With Vaccinations.

[Special to The Times-Dispatch.] Amherst, Va., January 23.—New cases of smallpox continue to develop in the Monitor neighborhood, three or four miles north of Amherst. So far there has been no outbreak of the disease among the colored population.
The source of the contagion has been traced to some one who came to the Monitor section from near Monroe, where smallpox was prevalent during the fall. People are being vaccinated by the dozens and the doctors are kept

busy.

A petition was circulated in Amherst asking for the pardon of John Beard and Bascom Williams, who were convicted at the October term of the Amherst Circuit Court of the murder of David Cooper, the Baltimore junk dealer, on July 22. Beard and Williams were given a five-year sentence each in the penitentiary, and about two months ago were taken to Richmond. The petition was signed by a number of the residents of Amherst, and also by neonle in different secand. and also by people in different sec-tions of the county. It was sent to the Governor to-day.

Captain H. H. Spangler is a candi-

date for the position of deputy mar-shal for the Western District of Vir-ginia. Captain Spangler has been sergeant of the convict road force for something over five years past, and

s well known in the county Attorney Edward Meeks has been appointed local counsel for Amherst County to represent the Southern Rail-way Company.

Bradstreet's Review of Trade.

New York, January 23.—Bradstreet's Weekly Review will say to-me-ow:
Sentiment-financial, industrial and commercial-manifestly is better than it was a week or a month ago. Apparently the presidential message issued during the week has helped to clear the economic atmosphere, and business men seem to be more disposed to go shead with their respective enterprises.

The marked success of the sale of New York State's \$51,000,000 bond issue evidences a plentitude of money for investment and the return of confidence in high-grade issues.

On the industrial side on anisors there is more work available, domand for iron and steel continues to reflect improvement, and in that industry, as in others, operations are increasing.

The more cheerful tone of affairs in financial markets seems to have affected those for cereais and cottom. The former shows few changes, but those few are in the direction of strength, especially in corn, which has hardened despite larger movement.

Business failures for the weak ending January 22 were 434, which compares with 412 last week, 366 in the like week of 1912, 436 in 1911, and 295 in 1910.
